DDL OMNI Honored with Seven National Design Awards

McLean, Virginia, September 12, 2008 – DDL OMNI is pleased to announce that it has been honored in the 2008 American Graphic Design Awards competition. This win marks the sixth time DDL OMNI has been honored in the competition, this year winning a record seven awards.

Presented by Graphic Design USA and sponsored by NewPage®, the four decade-old competition is one of the most prestigious in the industry, honoring design excellence across all media including print and collateral, corporate identity/logos, internet/interactive design, and more. Also one of the most selective, only 15 percent of the more than 10,000 entries were honored this year.

DDL OMNI's awards showcase a variety of media:

DDL OMNI's winning designs will be published in the 300-page *Graphic Design USA Annual*, which will also be posted online at www.gdusa.com. The printed *Annual* is distributed in December to graphic industry leaders nationwide and circulated by Graphic Design USA throughout the year.

Since 2001, the DDL OMNI design team has won a total of 26 industry awards for web, print, exhibit, and logo designs. "I am very pleased that Graphic Design USA has again recognized the outstanding effort by DDL OMNI to produce visually engaging graphics and designs for our clients. I am particularly pleased that our work has been recognized in such a wide breadth of media, from print displays to interactive Flash presentations. This award demonstrates our ability to create designs that take advantage of the unique characteristics of each medium," said Peter Caylor, Vice President, IT Division.

DDL OMNI is an engineering and technical services company whose capabilities include systems engineering and analysis, materials and structures engineering, design and prototyping, operations research, information technology, program management and acquisition support, logistics engineering, distributed simulation and wargaming, environmental services, and award-winning web design and development services.

The company is headquartered in McLean, VA, with offices in Virginia Beach, VA; Newport, RI; Norwich, CT; and San Diego, CA. Personnel also serve at government facilities in Groton, CT; Newport, RI; White Sands, NM; San Diego, CA; and Pearl Harbor, HI.
