DDL OMNI Awarded \$7.6 Million Contract to Support the Naval Surface Warfare Center, Carderock Division, Code 65

McLean, Virginia, September 30, 2010—DDL OMNI is pleased to announce the award of Contract No. N00178-04-D-4032-FD05 for underwater systems structure and structural design, engineering, and structural testing support to the Naval Surface Warfare Center, Carderock Division (NSWCCD), Survivability, Structures & Materials Directorate, Structures and Composites Division, Code 65. The Division develops, demonstrates, and transitions new and emerging structural material technologies in support of U.S. Navy surface ship and submarine structural systems. This 5-year contract will come under the direction of Kirk D. Beene, Vice President, Engineering Division. Work, led by Charles Zanis, Director for Materials and Structures, will be performed both at the DDL OMNI McLean headquarters and on site at NSWCCD.

“This is an important follow-on contract for DDL OMNI that demonstrates our distinctive materials and structures capabilities and strengthens our support to the Naval Surface Warfare Center, Carderock Division. We look forward to continuing to provide outstanding metallurgical and structural engineering and technical services to this dynamic program. Congratulations to the entire DDL OMNI team,” said James E. Schaeffer, Chairman, President and CEO.

DDL OMNI is an engineering and technical services company whose capabilities include systems engineering and analysis, materials and structures engineering, design and prototyping, shipboard design and installation, operations research, information technology, program management and acquisition support, logistics engineering, distributed simulation and wargaming, environmental services, and award-winning web design and development services.

The company is headquartered in McLean, VA, with offices in Virginia Beach, VA; Newport, RI; Norwich, CT; and San Diego, CA. Personnel also serve at government facilities in Groton, CT; Newport, RI; San Diego, CA; and Pearl Harbor, HI.
